The image displays four screenshots of a mobile web browser interface, likely from an Orange F 3G device, showing the QCon web application. The screenshots are arranged horizontally.

- Screenshot 1:** Shows a home screen or landing page with a colorful abstract background. It features a "hello!" message and a "naviguer simplement!" button with a hand icon.
- Screenshot 2:** Shows a page titled "mes services perso". It includes icons for TV d'Orange, Ligue 1, Musique, and 24/24 actu. Below these are sections for "mail" (0 messages), "mes communautés", and "à découvrir" (with a thumbnail of Florence Foresti).
- Screenshot 3:** Shows a page titled "mon espace client". It includes sections for "mon compte" (with a "Renvois d'appel" link), "infos tarifaires Orange mobile", and "Orange vous recommande" (with a thumbnail of a smartphone and text about SMS/MMS).
- Screenshot 4:** Shows a page titled "infos". It includes sections for "cinema" (with a thumbnail of a person), "Royal candidate aux primaires pour 2012", "Neige et verglas perturbent le trafic", and "météo" (with a weather icon).

Each screenshot shows a battery level of 65% and a timestamp of 09:40, 09:39, 09:39, and 09:39 respectively. The browser interface includes standard navigation buttons (back, forward, search, etc.) at the bottom.

74/100

The best score ever obtained for an Orange service
