"Google Suggest
and Google Maps are two
examples of a new approach
to web applications that we at
Adaptive Path have been calling
Ajax. The name is shorthand for
Asynchronous JavaScript + XML,
and it represents a fundamental
shift in what's possible
on the Web."

Jesse James Garrett
Co-founder, Adaptive Path

```
var xhr = new XMLHttpRequest();
xhr.onreadystatechange = function() {
    if (xhr.readyState == 4) {
        processChange();
    }
}
xhr.open("GET", "/foo/bar");
xhr.send(null);
```

Brendan's Blog

*"Most programmers should **run away** crying [from threading]. But they don't...*

"Instead, as with most other sharp tools, the temptation is to show how big one is by... tempting race-condition fate... Occasionally the results are infamous, but too often, with only virtual fingers and limbs lost, no one learns.

Brendan Eich
Inventor of JavaScript
CTO, Mozilla

"Threads violate abstractions six ways to Sunday.

"Mainly by creating race conditions, deadlock hazards, and pessimistic locking overhead.

"And still they don't scale up to handle the megacore teraflop future."

Brendan's Blog

Brendan Eich

```

The Editor of Our Dreams

Accessible from anywhere

Any device in any location

Simple to use, like Textmate

An editor, not an IDE

Wicked fast

Performance, performance, performance

Rock-solid real-time collaboration, like SubEthaEdit

It just works

Integrated command-line, like vi

Fun like Quicksilver, social like Ubiquity

“Self-hosted” environment, like Emacs

For extreme extensibility, but with JavaScript!

amazon® #	B00005JMEW

Quentin Tarantino's *Kill Bill, Vol. 1* is trash for connoisseurs. From his opening gambit (including a "Shaw-Scope" logo and gaudy '70s-vintage "Our Feature Presentation" title card) to his cliffhanger finale (a teasing lead-in to 2004's Vol. 2), Tarantino pays loving tribute to grindhouse cinema, specifically the Hong Kong action flicks and spaghetti Westerns that fill his fervent brain--and this frequently breathtaking movie--with enough cinematic references and cleverly pilfered soundtrack cues to send cinephiles running for their reference books. Everything old is new again in Tarantino's humor-laced vision: he steals from the best while injecting his own oft-copied, never-duplicated style into what is, quite simply, a revenge flick.
